

Why Inter-Tel® 3000?

The Ideal Communications Solution for **BUSINESS** and **RESIDENTIAL** Applications

FREE technical product certification

Training available online or via CD-ROM. FREE tech support to all certified technicians.

Affordable growth

Increments of 2 lines and 8 extensions keep costs in line and make configuration simple. Up to 52 extensions (40 standard and 12 IP) maximum capacity.

Standard features

Internal Music-On-Hold, Caller ID* (Name/Number), Door Phone/Doorstrike connections and more!

Hybrid system supports digital, analog and VoIP phones

No programming or additional cards to purchase. IP-based system phones can connect to the Inter-Tel 3000 system from anywhere in the world via a high speed Internet connection.** Supports any analog device such as fax machine, credit card terminal, etc.

Integrated voice mail (optional)

Program the voice mail & auto attendant in minutes, not hours.

Software-driven system for local or remote programming

Options include system phone, PC on site or PC remote access via dial-in (internal modem on board in Inter-Tel 3000 system).

System feature telephone choices

4-button cordless system phone; 8- or 16-button system phones (back-lit option and IP-based system phone available). Door Phone and Direct Station Select (DSS) console also available.

Modular design for easy add-ons and upgrades

Add more lines, extensions, voice mail and VoIP when you need it!

Hot swappable cards

Plug-in line, voice mail and T-1/PRI modules reduce service interruptions when performing upgrades or maintenance.

** Must subscribe to network service*

*** Requires Inter-Tel 3000 Broadband Module*
